

Technical Rider

Bal des Oiseaux

Up to date 11th of october 2024

This technical rider is an integral part of the contract.

All elements of this technical rider are entirely at the organizer's expense (unless otherwise specified).

Technical aspects may be adapted to suit the performance venue, subject to prior agreement with the stage manager. All information concerning the performance venue must be discussed with the stage manager prior to his arrival, in order to ensure optimum Please send us photos of the chosen venue beforehand.

Be sure to consult the latest version of the technical rider.

Duration : 3h15

Capacity : 400 if small layout; 800 if comfort layout.

Open space and continuous circulation. If there is a large audience, it allows the outsiders to enjoy the show

Implantation :

Minimum surface 25 x 30 m (even and flat)

Ideal surface : 30 x 35 m (even and flat)

Minimum height : indoor 6 m for the central mast, 4 m outdoor

Weather conditions and indoor fallback :

Le Bal des Oiseaux is designed to be performed outdoors, but if the weather conditions are such that the wind exceeds 50km/h and/or if there is more than 3mm of rain during the show, the performance will be canceled in accordance with the terms of the contract.

An indoor set-up can be considered in advance if it has been validated by our stage manager and if the decision to move in is taken on D-2 at the latest.

SCHEDULE

Get in : D-2 - Evening (Arrival 2 trucks plus 2 trailers and 12 to 13 people - please provide secure parking)

SET UP SCHEDULE : D-1

- Set: from 9am to 1pm and 2pm to 6pm

setting up and running of the BAR COUNTER

The bar is managed by the organizer. We set out its location in the space and take care of the decoration, and the rest is up to you! We don't supply the furniture, nor the 2 x 3m counter.

The presence of the bar under the structure is mandatory. If you have difficulty finding staff, the skills or the time to manage the bar, let us know in advance: we can delegate to an experienced team.

PREVENTION AND SAFETY

For the comfort of spectators, especially children: please provide **disposable hearing protection**.

Engrenage[s] and Sapage Nocturne pay particular attention to the well-being of the participants, especially with regard to **sexual and gender-based violence**. As we are aware that the party scene tends to be a breeding ground for problematic behavior, we kindly ask you to set up a reporting system to collect accounts, identify the aggressors and protect the victims. Everyone has the right to enjoy the show in complete peace of mind. Please put Noémie Bourigault in touch with the person responsible for sexual and gender-based violence and harassment in your organisation.

LIGHT ENGINEERING

MATERIAL REQUEST

Equipment request:

Power distribution :

- 2 x 32A dimmers - 6 ways
- 2x 20m 32A tetra power supply + 1 Y to supply the 2 32A dimmers on the central stage
- 2 mushrooms 32A to tetra 6x 16A

Prolongs :

- 20 x 5m PC 16
- 20x 10m PC 16
- 30 x 20m PC 16
- 20 multi socket outlets + waterproof electric
- 6 prolongs double socket 1m
- 2 x 10m 6 way multicore cable 16A Male / Female

DMX: 5

- 10 x 20m
- 10 x 10m
- 20 x 5m

The company's 16A dimmers are 3-point, so adapters may be required, depending on the PAR led.

Spotlights :

8 PAR 64 + CP62 lamps with colo filters : 4X L105 (Orange)+ 4X L079 (Blue)
12 PAR led such as Martin rush Par 2 RGBW Zoom
4 PAR 56 + lamp 300w NSP

Please also provide service lights for dismantling after the performance.

SOUND ENGINEERING

MATERIAL REQUEST

SOUND:

- 4 Loudspeaker 10' (such as PS 10) **maximum dimensions : 537x337x315**
- 6 Loudspeaker 15" (such as X15 L-acoustics)
- 2 Loudspeaker 12' - monitors (such as X12 L-acoustics)
- 3 subwoofers 18'
- Amplifiers and dedicated processors. **Each loudspeaker must have its own separate and independent power amplifier!!!!**
- **4 Shure ULX-D systems running with 4 Pockets / 3 Shure ULX-D systems running with 3 b58 / 1 Shure ULX-D system with pocket for DPA 4060 clip on (Please supply clamp and adapter dpa-shure for the pocket)**
Provide 2 or more directional antennas depending on HF racks.
- SEE Patch enclosed. **We supply some of the microphones.** Please provide 4 big and 1 small microphone stands.
- Speakon :
 - 1 x 30m : Podium 1
 - 1 x 15m : Podium 2
 - 2 x 40m : Podium 3
 - 2 x 50m : Podium 4
 - 1 x 25m : SUB 3 (middle back)
 - 4 x 5m : 10' at the central mast
 - 2 x 5m : 2 subs under central stage
 - 2 x 5m : for the 2 wedges on the central stage
- XLR :
 - 10 x 3m
 - 10 x 5m
 - 4 x 50m

FOH (régie):

- **we provide 2 Ui24R.**

RIDER

Dressing rooms:

Close to the venue (easily and quickly accessible on foot), the artists will need a large, clean, heated dressing room that is out of sight and can be locked or guarded/monitored and equipped with a table and chairs, mirrors, racks with hangers, selective waste, electrical sockets and toilets nearby. There should be showers and towels provided for the artists after the performance. In the event of several performances during the day or several successive days of play, a washing machine must be provided (with detergent), tumble dryer and iron (with ironing board).

Catering :

Please provide a water point for filling water bottles, snacks with small cakes and honey, fruit, cold drinks (fruit juices, soft drinks, local craft beers if possible) and hot drinks. Hot drinks - 100% Arabica coffee (no red coffee). If possible, please prefer fair-trade and organic coffee and tea.

Meals :

If the meals are included in the contract, please provide 12 to 13 hot meals in the dressing rooms 2 hours before the show, with a balanced diet that respects our dietary requirements. Please provide a microwave to heat them up.

Accommodation:

If accommodation is provided for in the contract, please book 1 double room and 11 single rooms. No twin rooms. Depending on the availability of accommodation in the surrounding area, the team may accept to stay in a guest house. The accommodation must be close to the venue (accessible in less than 10 minutes by foot). The vehicles are to remain on the guarded site, so bikes (better) or transportation will be needed if the accommodation is further away.

.

**We don't ask for more than what we need to make sure we have enough.
We can always adapt to specific conditions, but all we ask is
to be informed in advance so that we can work out solutions together. Thank you for never
presenting us with a 'fait accompli' on the day of the show.
Please do not hesitate to contact us as soon as possible if you encounter any problems.**
